

Precision Forestry Symposium 2014

The anchor of your value chain

Second Announcement

Venue: Wallenberg Research Centre,
Stellenbosch, South Africa

Date: March 3rd-5th, 2014

Abstract Submission Guidelines:

- Title uppercase, bold, left alignment (12 pt.)
- Names of Authors italics, left alignment (11 pt.)
- Authors' institutions left alignment (10 pt.)
- Section headings bold, left alignment (12 pt.)
- Figure and table captions bold left alignment (10 pt.)
- Tables with border, centre alignment
- Cited literature left alignment, single line spacing (11 pt.)

Maximum of three pages (preferably two) inclusive of title, authors, figures, etc. in 12 pt., single line spacing, without indentation in A4 format. All text should be in Times New Roman. Include brief sections including introduction, material and methods, results, conclusions and references. Compress images to 'print quality' to reduce file size. Please indicate the theme to which you are applying. For further instructions, please visit (<http://academic.sun.ac.za/forestry/pf2014.htm>).

Abstracts should be submitted as Word documents to Hannél Ham (hamh@sun.ac.za).

Themes

1. Enhanced forest stand and individual tree attribute information
2. Improved operational tracking/monitoring technologies
3. New transportation logistics technologies for fibre deliveries
4. Decision support developments in forest operations
5. Matching available fibre qualities to new bio-pathways
6. Development of site-specific Precision forest management strategies

Visit the Precision Forestry website for more information and registration:
